FROM: Lynn Kunzler, Senior Reclamation Specialist *LK*

RE: Site Inspection, Diamondfield Quartzite, American Stone#53/Briggs Quarry, Box Elder County, Utah M/003/049,

Date of Inspection: May 16, 2001
Time of Inspection: 12:30 p.m.
Conditions: cloudy, windy
Participants: Tom Munson and Lynn Kunzler, DOGM

Purpose of Inspection: document status of this site.

This permit is on the upper (west) end of a historic (pre-law) quarry. There was no activity at this site during this inspection, nor did it appear that there had been any activity yet this year. The recent (permitted) disturbance appeared to be within the 5-acre limit for a SMO. The only concern noted at this site was a fuel tank (estimated 200 gal capacity) that was sitting on the ground. The operator was contacted after the inspection and informed of the need for secondary containment for the fuel storage.
